Miami Beach, FL – Our 2nd Annual Miami Beach Cancer Walk is scheduled to take place September 27th, 2026 in Miami Beach and set to kick off in North Beach between 76th Street and 88th Street boardwalk. Our goal is to raise awareness among our local community and support efforts to fight such a devastating disease. The Miami Beach Cancer Walk events are developed to raise funds, awareness and hope for those battling all types of cancers. Our Mission: is to Unite communities in the fight against cancer, one beach walk at a time. Cancer never stops, and neither do we, healing (holistic) walk uniting nature and humanity. Join us at the Miami Beach Cancer Walk, proceeds donated to the Mount Sinai Braman Cancer Medical center. Developed by Open Hearts 501c Non-profit foundation. We all know someone who has been affected by the disease or lost the battle against it too soon. It is time to put our little grain of sand and support their cause. The event will be like no other done before as you will be walking on the sand/boardwalk while overlooking the beautiful and breathtaking beaches of Miami Beach! Attendees will be walking on the sand/boardwalk. There will be “beach wheelchairs” available for the elderly or disabled participants. No bicycle or running allowed. All participants require a \$30 donation; the fee includes event t-shirt and refreshments by our sponsors.
